TECHNICAL SERVICES PROGRAM SOLUTIONS

Customizable and extremely flexible – you choose which services best support your business.

Technical Support

At every site location, you get consistent equipment installation, including back-end turn-ups and testing in your environment. **We ensure this with end-to-end management of the installation process, such as asset procurement, asset management, 24x7x365 technical services, secure integration with your systems.**

Service Desk	Monitoring	Maintenance
<p>We field incoming requests in a timely and professional manner as an extension of your team.</p> 	<p>We proactively manage your equipment; when and if something happens, we'll be the first to know and take quick action to resolve it.</p> 	<p>With your Bailiwick team maintaining your device performance, reaction times are better than industry average. We know your brand, your business and your customers.</p> 

Experience the benefits for **yourself, your staff** and **your business.**

Trusting Bailiwick to actively manage, monitor and care for your complex IT needs will improve many aspects of your business.

ASSURANCE OF BUSINESS PERFORMANCE

Gain valuable visibility, data and individualized insights that will empower you to make informed business decisions. We provide both proactive and remote fault monitoring services, giving you additional confidence in the performance of your systems.

- A customized portal with a real-time overview of operations
- In-progress update of services
- Reporting trends and analysis
- Lifecycle management including inventory, support, planning and reporting

REDUCED WORKLOAD ON STAFF

Focus your talented resources elsewhere, knowing Bailiwick has your ongoing site services covered in a way that will integrate nicely with your own IT operating model.

- Tier 1, 2 levels of support let your people handle the more strategic IT initiatives, which improves employee engagement
- Budget management leads to cost savings
- Insightful analysis leads to more strategic business decisions
- Responsive reps answer your calls and provide timely solutions

CONTINUITY ACROSS LOCATIONS

Keep all systems at your locations operating and performing in sync with Bailiwick's expansive breadth of current IT knowledge and rare ability to holistically service and support all connected technologies and equipment regardless of brand or installer.

- Our centralized support team monitors equipment, which provides consistency
- Self-service knowledge base, support and performance metrics
- Available ticket-to-ticket integration so every location has the same experience and knows what to expect
