

**BAILIWICK**<sup>®</sup>  
An ePlus Technology, Inc. Company

# Strong from the center. Smart at the edge.

The powerful combined services team of ePlus and Bailiwick brings you an arsenal of specialized expertise that delivers seamless solutions across your entire infrastructure lifecycle.

Technology transformation is rarely simple – especially across large enterprises with hundreds, if not thousands of locations and complex tech stacks. ePlus' deep and trusted expertise combined with the pervasive presence and detailed execution of Bailiwick (acquired August 2024) gives our customers an unmatched ability to bring their technology vision to life from end-to-end. From the distributed edge to high density technology environments, we design, deliver, and support IT with unparalleled scale and confidence.

Combining enterprise-grade IT strategy with disciplined, professional deployment and managed services expertise, our customers are set up to unlock the full potential of their organizations.

# One Team. Endless Enterprise Possibility.

From grand visions to detailed deployments, our customers benefit from decades of combined expertise, working meticulously to bring their business outcomes to life through technology.

Our deep commitment to customer success, technical excellence, and long-term partnership is our true North. Whether you're deploying infrastructure across 1,000 locations or transforming a single, tech-dense campus, you can count on a collaborative team that delivers results. We can help accelerate and reignite growth, enabling you to stay ahead of change, unlock new opportunities, accelerate progress, and achieve more than you ever imagined. Our offerings are comprised of a large portfolio of possibilities – spanning the technology lifecycle – developed to help you tap into unimagined opportunity and potential.

*"Everyone, all the way up to the CEO, has heard ePlus and Bailiwick have done an excellent job."*

*"Our timeline told a story of urgency. ePlus and Bailiwick locked in architecture, planning, bill of materials, etc., all while working under unbelievable timeframes. They were able to flex and get it done."*

*"It was absolutely a team effort. A great collaboration of us, ePlus and Bailiwick."*
